## Gain Peace of Mind about Your Future

Our nation experienced significant periods of economic distress during the 1970s, the 2008 financial crisis, and the global pandemic. Inflation, political turmoil and other economic stressors have a bad habit of causing the U.S. dollar to lose buying power. And when that happens, it affects the value of your lifetime of retirement saving.

Fortunately, there is something you can do. Many Americans have achieved peace of mind by diversifying with gold and silver. And through historical periods of economic volatility, many retirement savers have seen gold and silver prices increase.\*

## Act TODAY to Diversify Your Savings

Physical gold and silver offer intrinsic value and have the potential to provide effective diversification. That's the secret. You worked hard to build your nest egg — should you keep it all in one basket?

An IRA containing physical gold and silver from Augusta makes it easy to receive the tax benefits of an IRA with coins or bars stored outside the banking system in a highly secure, non-government depository.
